Phoneline

Testing has gone well and the YAP conversion is ready to move forward and cancel Freedom Voice.

With that transition it has become evident that due to difficulties with local numbers such as our 918 747 0017 concerning federal regulations and fees, the 888 749 0017 number will be the best way to go and we plan to phase out the 918 number on our printed material. The 918 number will remain for the year so and will simply forward to the df YAP system.

The phoneline guidelines and training booklet review and update is complete so the Phoneline Volunteer request flyer is now available at EASCNA Family In FB

First in person training will be Feb 24 – 5:30p at Jimmy's in Tulsa. Zoom training schedule will be announced online. It is hoped, once determined it will be held on a recurring basis.

Please note: YAP provides a nice feature for locating meetings whereby texting to the 888 749 0017 number will be replied to with meeting locations within 50 miles. This is available for any location, no restricted to just our Area.
