

EASC PR March 2024 meeting notes

We had two meetings scheduled in March, both regarding planning and general possible projects. Additionally, the Website, Phonenumber and meeting schedule updates are running well. Contact Tony at phone@eascna.org for more information on phonenumber volunteer orientations or watch our FB page.

The main issue we are experiencing has to do with our ability to make face-to-face presentations. Most if not all these opportunities fall during the weekdays and in the daytime hours. We request via the GSRs to let their groups know PR is looking for assistance with making these presentations and anyone interested can contact PR@eascna.org or call Keith T at 918 808 4136.

We have a PowerPoint presentation in hand with a few updates required if needed but we also can simply make oral presentations depending on the location and audience.

We have a couple of standing invitations, and many opportunities, such as-
from our PR handbook – possible targets

Community colleges, or similar

Drug courts – occasional presentations

Local health fairs – County Health Departments

Resource assistance agencies

ILS

PR sub committee
